

## **Résultats préliminaires : concentrations en mercure total dans les plumes**

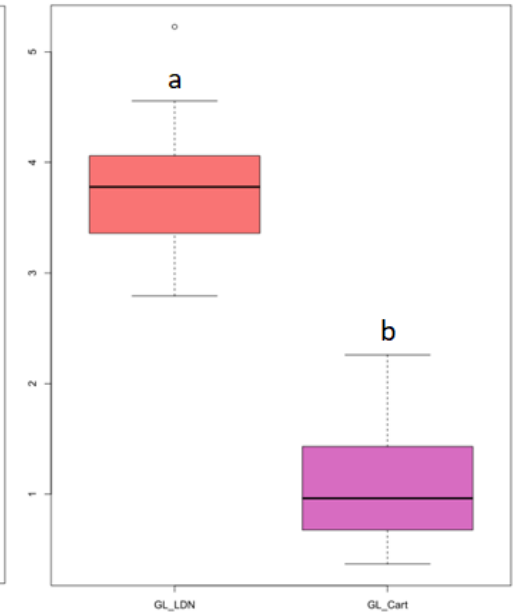

Toutes espèces et sites  
(concentrations en mercure  
exprimées en ng/g de poids sec)

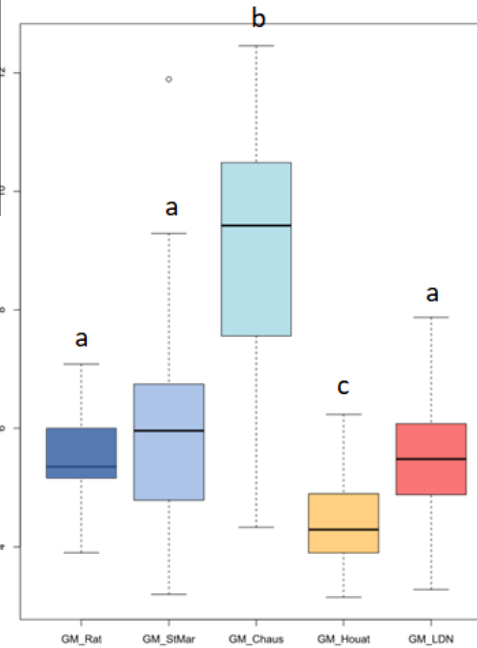

Cormoran huppé

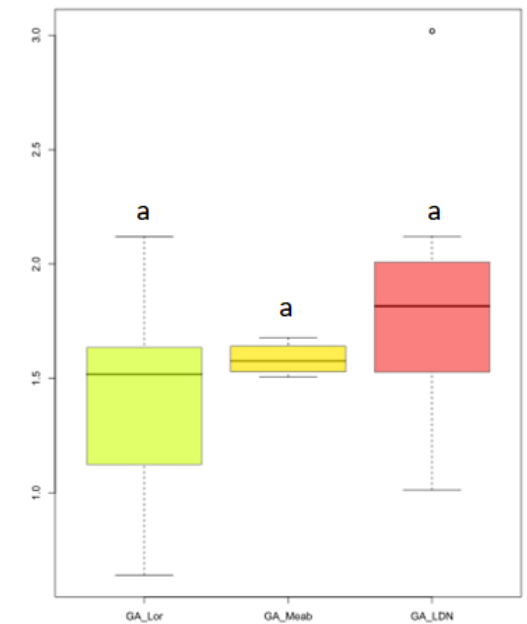

Goéland leucophée

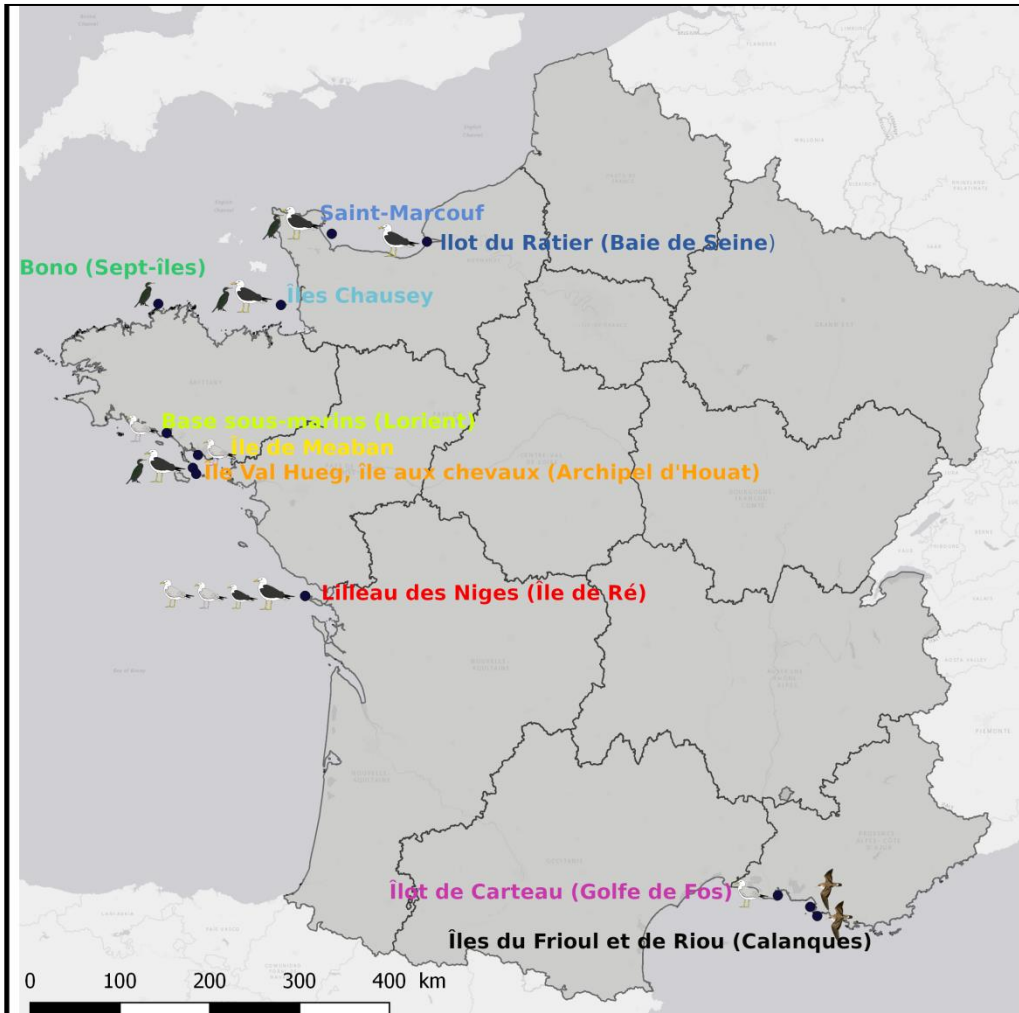

Goéland marin

Goéland argenté

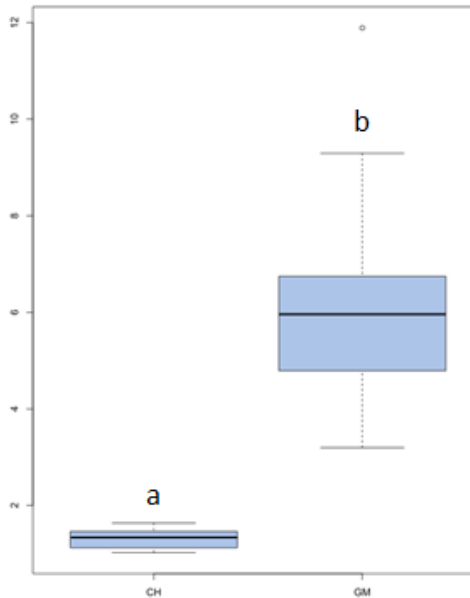

Comparaisons intraspécifiques  
(concentrations en mercure  
exprimées en ng/g de poids sec)

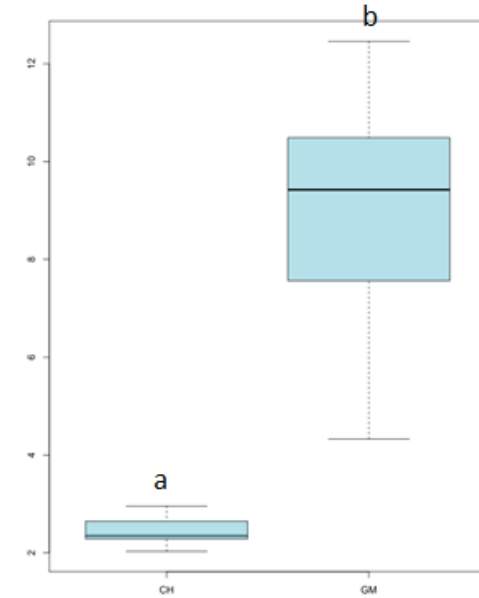

Comparaisons interspécifiques  
(concentrations en mercure  
exprimées en ng/g de poids sec)

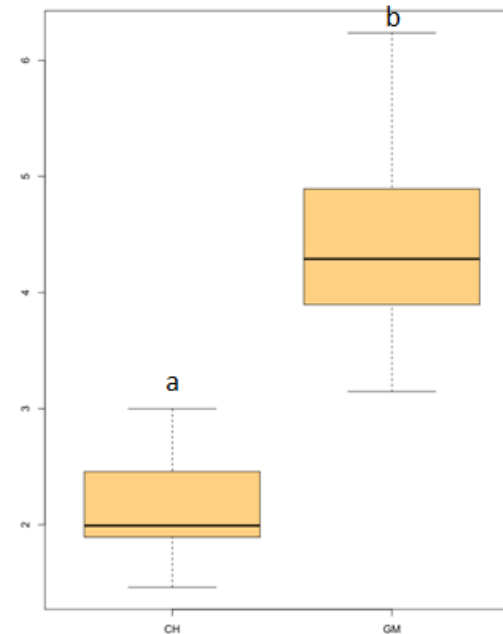

Cormoran huppé et goéland marin, Saint-Marcouf

Cormoran huppé et goéland marin, Chausey

Cormoran huppé et goéland marin, Houat-Hoëdic

Goélands leucopnée, argenté, brun et marin, Lilleau des Niges
